Lino Tedeschi
Chairman & CEO of CGT

We are a long-standing Italian group, active in 14 European countries and operating in Italy since more than 80 years under the CGT brand. In each country and sector where we operate, we are committed to find the most suitable solution to meet your needs.

In the energy power generation sectors, we design and offer integrated solutions that guarantee timely and reliable performances, while optimizing operating costs.

What makes us stand out is our customers' satisfaction, built day by day through accuracy, expertise, and the quality of our services and products.

Your trust make us prouder and more motivated every day.

THE ENERGY OF A GREAT INTERNATIONAL GROUP

CGT is part of an European Group, active in providing integrated solutions in **Construction Equipment, Energy & Power Generation, Industrial Vehicles, Warehousing and Logistics Equipment**. A highly integrated community, characterized by a strong sense of belonging, team work and strong focus on customers.

CGT POWER SYSTEMS

Power Systems industry is strategic for CGT, leader in providing integrated and bespoke solutions in all areas of expertise in which it operates: **OEM, Oil & Gas, Power Generation, Marine.**

CGT OIL & GAS

Energy is needed to explore, extract and transport oil and gas that are often found in remote and inaccessible locations.

CGT is your single-source supplier, offering you bespoke solutions for all upstream and downstream applications, whether it is for pumping, compression or any other form of auxiliary, main or emergency power.

Matching the high quality of the Cat® engines, in a power range from 100 kW to 15.000 kW, with its engineered solutions, **CGT has the tools and expertise to support you through the entire cycle**, from the pre-contractual analysis phase to the commissioning and plant start up. Our service and parts organization will keep you then running for years.

CGT CUSTOMIZED SOLUTIONS

For any Oil and Gas application, **CGT** helps you meet challenges from the toughest environments and most complex design issues with a custom-made packaged solution. With proven components and **CGT** engineering expertise running through your entire operation, you maximise your productivity.

CGT WITH ITS CUSTOMERS EVERYWHERE IN THE WORLD

CGT KEY REFERENCE DATA IN OIL & GAS:

- ◆ International experience
- ◆ Packages delivered:
more than 1,500
- ◆ Installed power in the Oil and Gas
market since 1980:
1,000 MW
- ◆ Keeping your business running:
24/365 Service
- ◆ Energy secured by
maintenance contracts
550 MW

CASE HISTORY

EMERGENCY POWER GENERATION IN THE OFFSHORE CASPIAN SEA

Scope of supply includes:

- ◆ **Six Emergency Diesel generators** 2000ekW - 2500kVA, 6,6kV powered by **Cat® engines 3516B-HD**.
- ◆ Unit Control Panels & Master paralleling control panels.
- ◆ Dual starting system with Ni-Cd starting batteries & hydraulic starting skid.
- ◆ MV NER & Line panel.

- ◆ **Winterized** cooling radiator.
- ◆ ASME "U" stamped fuel tank.
- ◆ Preheating systems and cable tracing for winterization.

CGT has provided a **complete service**, including: engineering, procurement, testing and supply of the units, long term preservation activities at site and final commissioning and start up.

Detail of Power Generation room & MV alternator.

Detail of Hydraulic Starting System.

Detail of Control Room with Unit Control Panels & Master paralleling control panels.

Detail of 3516B genset with local panel & preheating system.

Detail of 3516B engine front side.

CASE HISTORY

ONSHORE EMERGENCY POWER GENERATION

Scope of supply includes:

- ◆ One Emergency Diesel generator set 1020ekW -1275VA 400V with **Cat® engine 3512 and Cat® SR4B alternator**.
- ◆ **Container H60-J45 rated** and designed for **cold ambient down to -40°C**.
- ◆ Separate electrical room container with **dual HVAC system** and pressurizing system.
- ◆ Water mist + IG541 **fire fighting systems**.

- ◆ Dual starting system with Ni-Cd starting batteries & hydraulic starting skid.
- ◆ Pre-heating systems and cable tracing for **winterization**.
- ◆ ASME "U" stamped fuel tank.

CGT has provided a **complete service**, including: engineering, procurement, testing and supply of the units, long term preservation activities at site and final commissioning and start up.

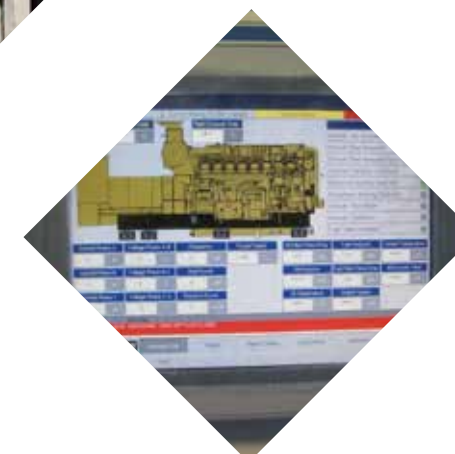

Detail of 3512 engine front side.

Ni-Cd starting batteries.

Detail of H120 Fire Damper.

Human Machine Interface.

CASE HISTORY

MAIN AND EMERGENCY POWER GENERATION FOR DRILLING IN ARCTIC CLIMATES

Scope of supply includes:

- ◆ **Ten Diesel generators** 1000ekW - 1500kVA 600V with **Cat® engine 3512B**.
- ◆ **Seven diesel generators for drilling.**
- ◆ Two for camp power feeding.
- ◆ One Emergency generator.

- ◆ **Soundproof containers, Fire fighting systems** Control, Synchronizing & Power Distribution panels.

CGT has provided a **complete service**, including: engineering, procurement, testing and supply of the units, long term preservation activities at site and final commissioning and start up.

Seven 3512B drilling genset into sound attenuated Containers.

Power distribution panels.

Fire Fighting Equipment.

Containerized Drilling Generator Sets during assembly phase.

CASE HISTORY

ONSHORE EMERGENCY POWER GENERATION

Scope of supply includes:

- ◆ **One Emergency Diesel** generator set 5500ekW - 687kVA.
- ◆ 400V with **Cat® engine C18**.
- ◆ Container.
- ◆ Separate electrical room.
- ◆ CO₂ fire fighting system.

- ◆ Starting system.
- ◆ Pre-heating system.
- ◆ Fuel tank.

CGT has provided a **complete service**, including: engineering, procurement, testing and supply of the unit, final commissioning and start up at site.

Cat C18 engine.

Control & Protection panel.

Fire Fighting Equipment.

Ni-Cd Starting Batteries.

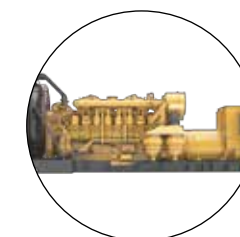

DRILLING & WELL SERVICE

CGT can tailor the right power solution for your needs, providing you with engines, transmissions and packages needed to complete new wells or improve production. Whether you require electrical power on land, offshore or for electric-driven drilling rigs, **CGT's** range of Cat® generator sets are widely known for performance, reliability, durability, and fuel flexibility in the oil and gas industry. **CGT** is there for you and with you when constructing your power solutions for your drilling applications and for the long term maintenance.

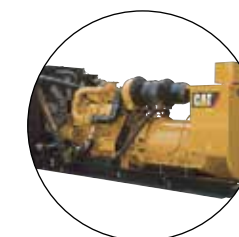

C-Series Engine Family

- A** Mechanical drilling & Well service
- M** C13, C15, C18, C27, C32
- F** Diesel
- P** 300 - 750 kW

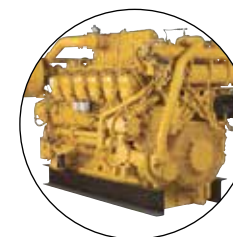

3500 Generator Sets for drilling

- A** Electric land drilling
- M** 3500, 3500B, 3500C, 3500E
- F** Diesel and Gas
- P** 800 - 1300 kW

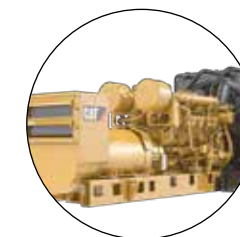

C-Series Generator Sets

- A** Electric land drilling & camp power
- M** C15, C18, C27, C32 ACERT
- F** Diesel
- P** 300 - 900 kW

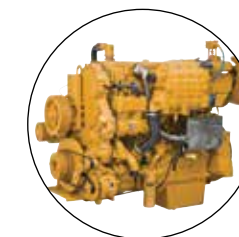

3500 Engine Family

- A** Mechanical drilling & Well service
- M** 3500, 3500B, 3500C, 3500E
- F** Diesel
- P** 500 - 2400 kW

3500 Generator Sets with Dynamic Gas Blending

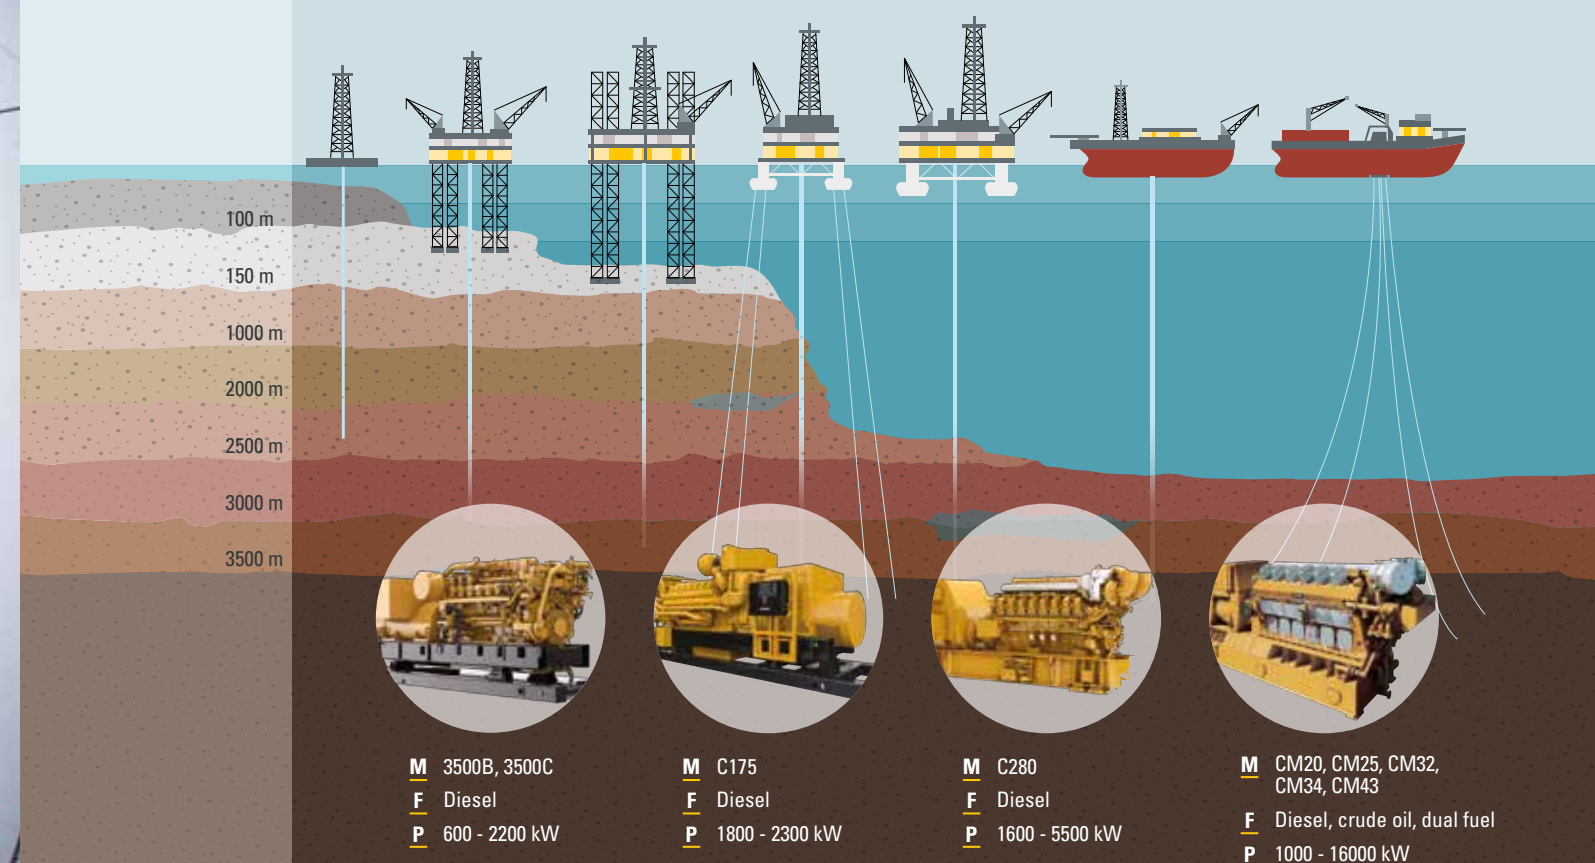

- A** Electric land drilling
- M** 3500B & 3500C with DGB
- F** Diesel with fuel gas
- P** 1000 - 1600 kW

Hazardous locations engines

- A** Mechanical drive
- M** C7, C9, C15, C32
- F** Diesel
- P** 200 - 1000 kW

APPLICATION FOR OFFSHORE DRILLING

PRODUCTION

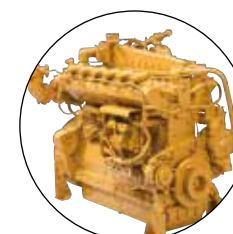

CGT is constantly working to improve and adapt its products and services to meet the stated requirements for environmental conditions, emission legislations, area classifications and the specifications of marine classification societies. The different solutions for offshore and land based applications can meet also the additional requirements to operate in hazardous areas.

CGT service engineers keep your business running when and where you need them.

C-Series Engine Family

- A** Mechanical
- M** C13, C15, C18, C27, C32
- F** Diesel
- P** 300 - 1000 kW

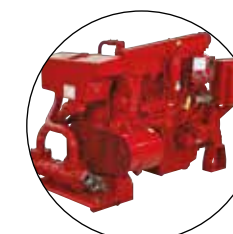

Gas Engines

- A** Pump engines and auxiliary power.
- M** G3300, G3400, G3500
- F** Field gas, associated gas, pipeline gas
- P** 70 - 1300 kW

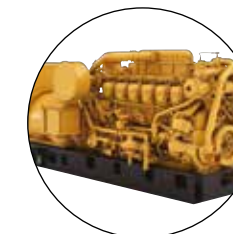

Gas Generator Sets

- A** Plant electrification, camp power and auxiliary power
- M** G3300, G3400, G3500, G3600, GCM
- F** Pipeline gas, field Gas
- P** 100 - 9700 kW

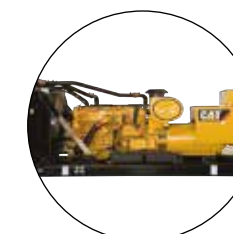

Fire Pump Engines

- A** Fire pump engines
- M** C series, 3400 & 3500 series
- F** Diesel
- P** 150 - 2300 kW

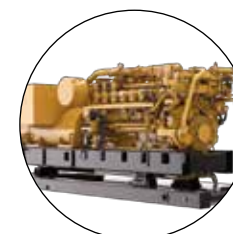

Dual Fuel Generator Sets

- A** Plant electrification, camp power and auxiliary power
- M** 3500B, 3500C, CM family
- F** Diesel & fuel gas
- P** 1000 - 14000 kW

Diesel Generator Sets

- A** Plant electrification, standby, camp power, and auxiliary power
- M** C series, 3500, C175, 3600 & CM family
- F** Diesel
- P** 200 - 14500 kW

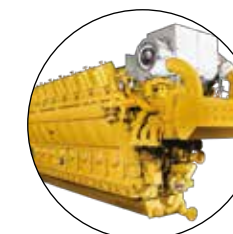

3500 Offshore Generator Sets

- A** Main power, emergency power, essential services onboard, offshore production platforms and vessels
- M** 3500B, 3500C
- F** Diesel
- P** 600 - 2200 kW

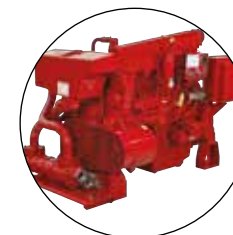

C175 Offshore Generator Sets

- A** Main power, emergency power and essential services onboard offshore production platforms and vessels
- M** C175
- F** Diesel
- P** 1800 - 2300 kW

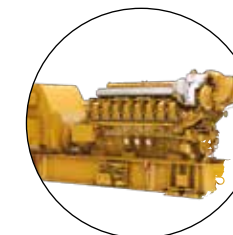

CM Offshore Generator Sets

- A** Main power and essential service for offshore production platforms and vessels
- M** CM20, CM25, CM32, CM43
- F** Crude oil, MDO and dual fuel
- P** 1000 - 16000 kW

Fire Pump Engines

- A** Fire pump engines
- M** C series, 3400 & 3500 series
- F** Diesel
- P** 150 - 2300 kW

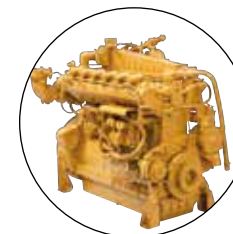

C280 Offshore Generator Sets

- A** Main power and essential services power onboard production platforms and vessels.
- M** C280
- F** Diesel
- P** 1600 - 5500 kW

GAS COMPRESSION- CRUDE TRANSMISSION

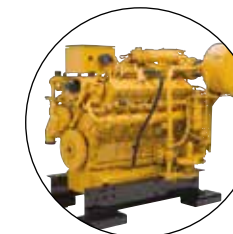

A variety of processes, different performance requirements: whatever your application, **CGT Power Systems** is the partner that makes the difference by standing beside you and our products.

Gas engines by Caterpillar are characterised by excellent mechanical efficiency (up to 44%) and low fuel consumption. With our broad operating ranges and options, you can tailor engine specifications to any application, and to your site-specific requirements.

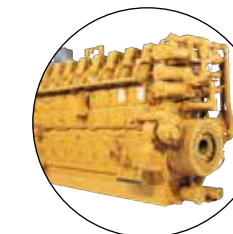

G3300 Caterpillar Engine Family

- A** Gas compression
mechanical drive
- M** G3304, G3306, G3500
- F** Pipeline, field and associated gas
- P** 70 - 160 kW

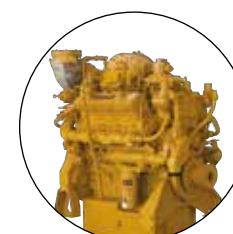

CG137 Gas Engine Family

- A** Gas compression
mechanical drive
- M** CG137-08, CG137-12
- F** Pipeline, field and associated gas
- P** 300 - 450 kW

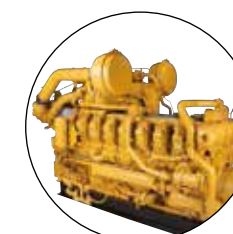

G3600 Caterpillar Engine Family

- A** Gas compression
mechanical drive
- M** G3606, G3608, G3612, G3616
- F** Pipeline, field and associated gas
- P** 1300 - 3800 kW

G3400 Caterpillar Engine Family

- A** Gas compression
mechanical drive
- M** G3406, G3408, G3412
- F** Pipeline, field and associated gas
- P** 160 - 480 kW

G3500 Caterpillar Engine Family

- A** Gas compression
mechanical drive
- M** G3508, G3512, G3516, G3520
- F** Pipeline, field and associated gas
- P** 400 - 1300 kW

GCM34 Gas Engine Family

- A** Gas compression
mechanical drive
- M** G12CM34, G16CM34
- F** Pipeline, field and associated gas
- P** 4500 - 6100 kW

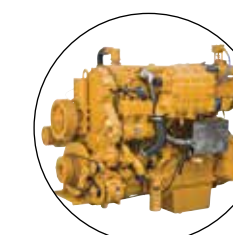

C-Series Engine Family

- A** Mechanical drive
- M** C13, C15, C18, C27, C32
- F** Diesel
- P** 300 - 1000 kW

3500 Engine Family

- A** Mechanical drive
- M** 3500, 3500B, 3500C, 3500E
- F** Diesel
- P** 500 - 2400 kW

Hazardous locations engines

- A** Mechanical drive
- M** C7, C9, C15, C32
- F** Diesel
- P** 150 - 800 kW

CAT FINANCIAL SERVICES

OUR CUSTOMERS CAN COUNT ON CAT FINANCIAL TO PROVIDE THE BEST FINANCING SOLUTION FOR THEIR BUSINESS.

Increased efficiency, including more time for planning and decisions, are advantages that our customers expect from us. Cat Financial knows the challenges of the Oil & Gas industry.

Cat Financial offers financing and leasing for all of Caterpillar's product line, with services available for each market that Caterpillar serves and it provides services to customers throughout Africa, the Americas, Asia, Australia and Europe, supported by offices in over 40 countries.

WHY CAT FINANCIAL?

INDUSTRY COVERAGE

From supporting gas compression and storage to well servicing and onshore drilling, Cat Financial can help, providing service to customers in a variety of industries with a variety of demands. Every Petroleum customer needs a financing contact who not only knows the financial sector but also knows the business. Cat Financial experts are part of Caterpillar and are specialized by industry, adding real value to your bottom line.

LOCAL PRESENCE

Need a local expert? Cat Financial knows local markets and how to navigate the legal and regulatory environments. Cat Financial has offices in the Americas, Europe, and Asia, and financing representatives all over the world. Put our knowledge to work to power the deal.

EXCEEDING CUSTOMER EXPECTATIONS

The right process simplifies everything. Our process begins with understanding your critical requirements and developing a tailored solution. We then document, close, and fund the deal to exceed the expectations of all parties involved.

ONE CUSTOMER EXPERIENCE WORLDWIDE

Strong relationships are the key to our success. That's why Cat Financial works across geographical boundaries to deliver the same quality experience to every customer, every time.
